

# Inigo Management Liability Offering Summary

We provide collaborative and innovative management liability solutions, for complex risks from around the world. Our philosophy is to partner with brokers and clients for the long term, to provide consistent and value-added service, on a primary and low excess basis.

The team is led by market-leading, experienced underwriters, utilising multiple data sources and analysis to ensure our clients are provided with the right options.

We are here to provide indemnity for claims when claims happen. Moreover, our best-in-class claims handling is provided by some of the most experienced and well-respected claims managers in the market, ensuring that clients have the best advice at what can be a challenging time.

Underwriters and claims teams work closely together to provide market-leading insights to brokers and clients, through market reports such as our annual Defence Counsel Survey, and through organising and speaking at panel conferences in the US, Australia, and Europe. We pride ourselves on being at the forefront of the discussion on emerging issues for our clients.

Inigo has quickly built one of the largest management liability portfolios in the London market, and in a short time, our reputation as a go to market for the main brokers operating in management liability has become second to none.
