2025

# Inigo Cyber Property Damage Consortium

**INIGO**

## Who we are

The Inigo Cyber Property Damage consortium provides up to \$50m in excess layer limit for Cyber Property Damage (CZ) and blended Cyber (CY) and Cyber Property Damage programmes. Both CY and CZ can be provided to the full limit. The consortium targets those industries that have both an exposure to Cyber PD loss as well as a mature risk management framework that recognises and treats the risk.

Focus industries for the consortium are Energy, Manufacturing, Power, Transportation and Logistics, Pharmaceuticals and Marine. All industries and Geographies will be considered. The consortium can sit excess of both affirmative Cyber Property Damage products as well as programmes structured as buybacks to Cyber exclusions in Property Damage products.

- Flexibility of attachment
- Ability to provide both Cyber (CY) and Cyber Property Damage (CZ) to full limit
- Data & Analytics focus enabling consistent and stable underwriting
- Focus on developing long term partnerships with clients and brokers with flexible approach to products/ wordings

## Claims Experience

Valuable insights from claims data often lie buried and untouched in thousands of reports and surveys. We prioritise transforming this vast amount of information into actionable knowledge in our bespoke D&A and MI platforms.

By analysing past claims data to identify trends and pinpoint the root causes of losses, we can develop preventative strategies and improve future underwriting decisions. It also enables us to tell better stories about preventative technologies, and develop deeper risk management solutions that are innovative, unique and reflect Claims' critical position as the core of our business.
