

Energy Liability

APPETITE SUMMARY

Energy Liability

WHO WE ARE

Inigo is a global specialty insurance and reinsurance company, built around the disciplined use of data and judgement. We turn analysis into insight, and insight into action – giving clients a clearer view of the risks we underwrite and the decisions we stand behind.

Our culture is grounded in openness, strong technical debate and sound underwriting judgement. That focus allows us to deliver clear, consistent outcomes clients can trust, even in complex or uncertain risk environments. Inigo became part of Radian Group in February 2026.

The energy sector is at a tipping point – shaped by social pressure, climate change, regulation and technological disruption. As the industry transforms, our insurance evolves with it. We protect a broad range of on and offshore energy companies across upstream, midstream, downstream, renewables, construction and utilities, offering tailored liability coverage for third party bodily injury, property damage and pollution.

CLAIMS EXPERIENCE

We listen carefully to what claims are telling us. By turning experience, outcomes and data into clear insight through our analytics and ML platforms, we understand why losses happen – not just that they do. That insight strengthens underwriting, sharpens risk prevention and elevates client conversations. The result isn't just better data, but fewer surprises, clearer decisions and stronger outcomes – built around clients when it matters most.

At Inigo, claims sit at the heart of our business as a truly end-to-end service.

CLAIMS TEAM

Steve Agutter
HEAD OF CLAIMS

Jade Watt
CLAIMS ANALYST

Steve Agutter
HEAD OF CLAIMS

“Claims are where promises are proven. That’s why we embed deeply, think ahead, and deliver better outcomes for brokers and clients.”

Data in Action

Turning insight into underwriting decisions.

By applying data thoughtfully alongside meaningful reinsurance capacity and expert claims handling we help bring greater clarity and confidence to challenging risks. The examples below show how this works in practice.

Auto Liability

1 in 33
crashes results in a loss greater than \$1m

Aviation War

Together, the US and China make up about
43% of overall commercial traffic

Natural Catastrophes

InSPIRe
INIGO DATA STRONG PRESENTATION & PROJECT REGISTRATION

1.76x powerful hurricanes in the 2010s
compared to the 1980s fueled by warming sea temperatures

Engineering Reports

What once took 48hrs,
now takes 4 minutes

HORIZON

Horizon is Inigo's annual risk leadership programme. Each year, we bring together a select group of senior risk managers for open, data-led conversations about the risks shaping their businesses. The result is a deeper, more transparent relationship between insurer and client - and a sharper, more informed view of risk on both sides.
