WHO WE ARE

Inigo is a global specialty insurance and reinsurance company, built around the disciplined use of data and judgement. We turn analysis into insight, and insight into action – giving clients a clearer view of the risks we underwrite and the decisions we stand behind.

Our culture is grounded in openness, strong technical debate and sound underwriting judgement. That focus allows us to deliver clear, consistent outcomes clients can trust, even in complex or

uncertain risk environments. Inigo became part of Radian Group in February 2026.

Instead of adhering to traditional delegated underwriting models which respond to existing prospects, Inigo take a proactive, strategic, and data-centric approach. We collaborate with MGAs and originating / wholesale brokers to uncover new opportunities and construct bespoke solutions for clients backed by our lead capacity.

WHY PARTNER WITH INIGO

Partnerships at Inigo is an entrepreneurial, data-driven venture that draws on our underwriting expertise, analytical capabilities, and strategic focus. Unlike conventional insurers that might take a passive approach, we actively seek opportunities where our presence can solve problems, create efficiencies, and develop new market opportunities.

We focus on providing lead capacity to fewer high-value collaborations, carefully selected based on principles that guide every engagement, ensuring that each deal aligns with our business model and long-term strategy to create value for our partners and the communities we both serve.

PRINCIPLES

We focus on fewer, but deeper and higher-value collaborations, centred around our core Partnerships principles:

- We lead and/or have authority to influence underwriting strategy
- The relationship is material for both Partners
- The product offers distinguishing characteristics enabling it to outperform
- A shared culture of high fidelity Data & Analytics
- Complementary to Inigo's open market portfolio

CLAIMS EXPERIENCE

We listen carefully to what claims are telling us. By turning experience, outcomes and data into clear insight through our analytics and MI platforms, we understand why losses happen – not just that they do. That insight strengthens underwriting, sharpens risk prevention and elevates client conversations. The result isn't just better data, but fewer surprises, clearer decisions and stronger outcomes – built around clients when it matters most.

At Inigo, claims sit at the heart of our business as a truly end-to-end service.

Data in Action

Turning insight into underwriting decisions.

By applying data thoughtfully alongside meaningful reinsurance capacity and expert claims handling we help bring greater clarity and confidence to challenging risks. The examples below show how this works in practice.

Auto Liability

1 in 33

HORIZON

Horizon is Inigo's annual risk leadership programme. Each year, we bring together a select group of senior risk managers for open, data-led conversations about the risks shaping their businesses. The result is a deeper, more transparent relationship between insurer and client - and a sharper, more informed view of risk on both sides.
