APPETITE SUMMARY

WHO WE ARE

Inigo is a global specialty insurance and reinsurance company, built around the disciplined use of data and judgement. We turn analysis into insight, and insight into action – giving clients a clearer view of the risks we underwrite and the decisions we stand behind.

Our culture is grounded in openness, strong technical debate and sound underwriting judgement. That focus allows us to deliver clear, consistent outcomes clients can trust, even in complex or uncertain risk environments. Inigo became part of Radian Group in February 2026.

As cyber threats grow more sophisticated and unpredictable, staying ahead is imperative. Our advanced underwriting process and bespoke

rating model go beyond standard market practice – combining multiple data sources with the latest claims intelligence to deliver deeper insight into your cyber risk exposure.

With a global focus on large corporations across all industries, we provide a tailored approach across Cyber, Technology Professional Liability and Cyber Property Damage. Renowned for our responsiveness, innovation, and flexibility, we prioritise long-term partnerships, providing risk transfer products that complete your cybersecurity defences against this critical and fast-changing threat.

CLAIMS EXPERIENCE

We listen carefully to what claims are telling us. By turning experience, outcomes and data into clear insight through our analytics and MI platforms, we understand why losses happen – not just that they do. That insight strengthens underwriting, sharpens risk prevention and elevates client conversations. The result isn't just better data, but fewer surprises, clearer decisions and stronger outcomes – built around clients when it matters most.

At Inigo, claims sit at the heart of our business as a truly end-to-end service.

Steve Agutter
HEAD OF CLAIMS

“Claims are where promises are proven. That’s why we embed deeply, think ahead, and deliver better outcomes for brokers and clients.”

Data in Action

Turning insight into underwriting decisions.

By applying data thoughtfully alongside meaningful reinsurance capacity and expert claims handling we help bring greater clarity and confidence to challenging risks. The examples below show how this works in practice.

Auto Liability

1 in 33

crashes results in a loss greater than \$1m

Aviation War

Together, the US and China make up about

43% of overall commercial traffic

Natural Catastrophes

1.76x powerful hurricanes in the 2010s

compared to the 1980s fueled by warming sea temperatures

Engineering Reports

What once took 48hrs,

now takes 4 minutes

HORIZON

Horizon is Inigo's annual risk leadership programme. Each year, we bring together a select group of senior risk managers for open, data-led conversations about the risks shaping their businesses. The result is a deeper, more transparent relationship between insurer and client - and a sharper, more informed view of risk on both sides.
