

Marine Liability

APPETITE SUMMARY

Marine Liability

WHO WE ARE

Inigo is a global specialty insurance and reinsurance company, built around the disciplined use of data and judgement. We turn analysis into insight, and insight into action – giving clients a clearer view of the risks we underwrite and the decisions we stand behind.

Our culture is grounded in openness, strong technical debate and sound underwriting judgement. That focus allows us to deliver clear, consistent outcomes clients can trust, even in complex or uncertain risk environments. Inigo became part of Radian Group in February 2026.

We safeguard the maritime industry – from shipowners and operators to shoreside businesses like port operators, shipbuilders and repairers. Covering everyone from sole traders to multinational corporations, our Marine Liability insurance is available globally on a direct and reinsurance basis, including niche areas like Certificate of Financial Responsibility providers. By analysing the data-rich marine and energy sectors, we deliver precision underwriting, tailored to your specific risk profile. With a broad risk appetite, a reputation for innovation, and commercial acumen, we provide meaningful capacity that puts the power back in your hands.

CLAIMS EXPERIENCE

We listen carefully to what claims are telling us. By turning experience, outcomes and data into clear insight through our analytics and MI platforms, we understand why losses happen – not just that they do. That insight strengthens underwriting, sharpens risk prevention and elevates client conversations. The result isn't just better data, but fewer surprises, clearer decisions and stronger outcomes – built around clients when it matters most.

At Inigo, claims sit at the heart of our business as a truly end-to-end service.

CLAIMS TEAM

Steve Agutter
HEAD OF CLAIMS

Jade Watt
CLAIMS ANALYST

Steve Agutter
HEAD OF CLAIMS

“Claims are where promises are proven. That’s why we embed deeply, think ahead, and deliver better outcomes for brokers and clients.”

Data in Action

Turning insight into underwriting decisions.

By applying data thoughtfully alongside meaningful reinsurance capacity and expert claims handling we help bring greater clarity and confidence to challenging risks. The examples below show how this works in practice.

Auto Liability

1 in 33

crashes results in a loss greater than \$1m

Aviation War

Together, the US and China make up about

43% of overall commercial traffic

Natural Catastrophes

1.76x powerful hurricanes in the 2010s

compared to the 1980s fueled by warming sea temperatures

Engineering Reports

What once took 48hrs,

now takes 4 minutes

HORIZON

Horizon is Inigo's annual risk leadership programme. Each year, we bring together a select group of senior risk managers for open, data-led conversations about the risks shaping their businesses. The result is a deeper, more transparent relationship between insurer and client - and a sharper, more informed view of risk on both sides.
